A. completely B. extremely C. difficultly D. weakly
- Question 19.** The government has enacted a number of new laws to _____ wildlife.
A. conservation B. conservative C. conservable D. conserve

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to the questions from 20 to 23.

Whales are the largest animals in the world, and the gentlest creatures we know. Although the whale is very huge, it is not hindered at all by its size when it is in the water. Whales have tails that end like flippers. With just a gentle flick, it can propel itself forward. The skin of a whale is so smooth that it does not create any friction that can slow the whale down. A whale's breathing hole is located on the top of its head, so it can breathe without having to completely push its head out of the water. Whales are protected from the cold seawater by body fat that is called blubber.

When whales are in danger, there are people who go to great lengths to help them. One such case occurred in 1988, when three young whales were trapped in the sea. It was close to winter and the sea had begun to freeze over. Whales are mammals that require oxygen from the air, so the frozen ice was a great danger to them. All they had then was a tiny hole in the ice for them to breathe through. Volunteers from all over soon turned up to help these creatures. They cut holes in the ice to provide more breathing holes for the whales. These holes would also serve as guides for the whales so that **they** could swim to warmer waters.

- Question 20.** The word "**they**" in the passage refers to _____.
A. warmer waters B. the whales C. holes D. guides
- Question 21.** Whales are protected from the cold seawater by its _____.
A. head B. skin C. tail D. blubber
- Question 22.** Which of the following best describes the main idea of this passage?
A. Some remarkable similarities of whales to humans
B. Whales as the largest, gentlest but vulnerable creatures
C. Whales as the only animals to live in warm water
D. Successful attempts to rescue whales all over the world
- Question 23.** Where is the whale's breathing hole located?
A. On its back B. On its face C. On its head D. On its tail

*Mark the letter A, B, C or D on your answer sheet to indicate the word **OPPOSITE** in meaning to the underlined word in the following question.*

Question 24. The elephant is a species which is threatened with extinction because of overhunting.

A. contaminated

B. polluted

C. killed

D. protected

WRITING

Combine each pair of sentences using the word(s) in the bracket. Write your answers on your answer sheet.
